

This workshop is the 3rd POLIMP Stakeholder Workshop. The event is hosted by the Centre for European Policy Studies (CEPS) at their premises in Brussels, Belgium. The main objective of the workshop is the discussion on market mechanisms, particularly the [EU ETS](#), the flagship of the EU climate change mitigation measures since 2005. The workshop focuses on the assessment of economic impacts on the cost-effectiveness of the [EU ETS](#), increasing harmonisation in the implementation of the [EU ETS](#), and national stakeholders' views on how the 2030 framework will influence the political support for the [EU ETS](#).
